# ABOUT

Foods Only is the best website for foodies out there! Our application serves as a recipe finder, but is tailored to you! We allow our users to search hundreds of recipes, save their favorites, and even post their own recipes! We aim to be the best platform for cooks out there, for all skill levels. Picky eater? Food allergies? Come check out Foods Only and we got you covered.

# FEATURES

## ● Profiles

Users can create profiles and include information like cooking skill level, food allergies, food preferences, and keep track of their favorite recipes.

## ● Search with AI

Let AI recommend a new recipe based on your interests! We utilize ChatGPT to search hundreds of recipes that take into account user preferences and settings.

## ● Trending Recipes

We want our users to keep coming back! Check out our trending page which has new and interesting recipes to try.

## ● Recipe Posting

Got grandma's cookie recipe that is to die for? Post your own recipes for other users to check out and try for themselves!

Our website does not require advanced computer skills to use. By relying on basic designs, our website is easy to use.

# CREDIBLE

We use a third-party API to supply most of our recipes. In future releases, we can supply more information to the user about specific nutritional and dietary facts.

Hi crvelworld! I'm your helpful AI. Here are some results for italian that I found. I hand picked them based on your allergies of nuts and food preferences for omnivore. Put those Professional skills to use!

# DESIRABLE

The screenshot shows the homepage of the Desirable Foods website. At the top, there is a navigation bar with a logo on the left, a search bar with a magnifying glass icon in the center, and user account options (Home, Add-Recipe, crvelworld, Logout) on the right. Below the navigation bar, there is a grid of six food images: a bowl of chicken adobo, a spinach omelet, a strawberry bellini cocktail, a stack of chapati bread, a bowl of pozole, and a bowl of chicken tinola. To the right of the images, there is a sidebar titled "Trending recipes this week" with a list of six recipes: Famous Chicken Adobo, Baby Spinach Omelet, Strawberry Bellini, Indian Chapati Bread, Pozole, and Chicken Tinola.

- Famous Chicken Adobo
- Baby Spinach Omelet
- Strawberry Bellini
- Indian Chapati Bread
- Pozole
- Chicken Tinola

Our cohesive, yet simplistic design gives the impression of comfortability while browsing each page of our website. Our home page is a great example.

# ACCESSIBLE

Simple fonts, easy-to-look-at colors, and organized information make our application accessible to all people.

## BABY SPINACH OMELET

Enjoy this spinach omelet with tender baby greens, Parmesan cheese, and a little nutmeg cooked together for the perfect start to the day

### Ingredients

- 2 eggs
- 1 cup torn baby spinach leaves
- 1 ½ tablespoons grated Parmesan cheese
- $\frac{1}{4}$  teaspoon onion powder
- $\frac{1}{8}$  teaspoon ground nutmeg
- salt and pepper to taste

### Directions

- Beat eggs in a bowl, and stir in baby spinach and Parmesan cheese. Season with onion powder, nutmeg, salt, and pepper.
- Spray a small skillet with cooking spray and place over medium heat. Once warm, add in the egg mixture and cook until partially set, about 3 minutes. Flip with a spatula, and continue cooking, 2 to 3 minutes.
- Reduce heat to low and continue cooking, 2 to 3 minutes, or until omelet reaches desired doneness.

### Notes

*Very good for breakfast.*

# SOURCE CODE MANAGEMENT

- GitHub Code Reviews

We require 2 levels of approval when merging code to the master branch. By enforcing such reviews, we maintain understandability with code and functionality.

- Branch Protection

We have protections added to master and release branches to ensure bad code does not make it to production. By enforcing these rules, we are guaranteed to always have stable releases.

# TEAM BUILDING

## ● Humor

Laughing is good for you! Inviting humor into our team boosts production and team spirit. Not everything has to be serious, let's have fun!

## ● Accountability

Working together to ensure we are all on track is vital for team building. We have each others' backs and pick up slack when necessary.

# TASK MANAGEMENT

- Notion for Project Management

Notion is perfect for sprints, task management, deadlines, and information archiving. We utilize these features to ensure we are on track for development.

- Discord Channels

Discord is perfect for remote collaboration and communication. We use different text and voice channels to ensure we are on the same page with deadlines and expectations.
